

# 16th Street SW

## RECONSTRUCTION PROJECT

City Council Presentation

## 16<sup>th</sup> Street SW Reconstruction 14<sup>th</sup> Ave SW to 2<sup>nd</sup> Ave SW

May 6, 2024

## Today's Presenters

**Matt Kinsella, PE**

- Project Manager

**Levi Heller, PE**

- Assistant Project Manager

## Other Project Team Members

### Agency Partners

- Lance Meyer, PE
- Stephen Joersz, PE
- Jason Sorenson

- Seng Marohl
- Chad Beggs, PE

### Consultant Team

## Tonight's Agenda

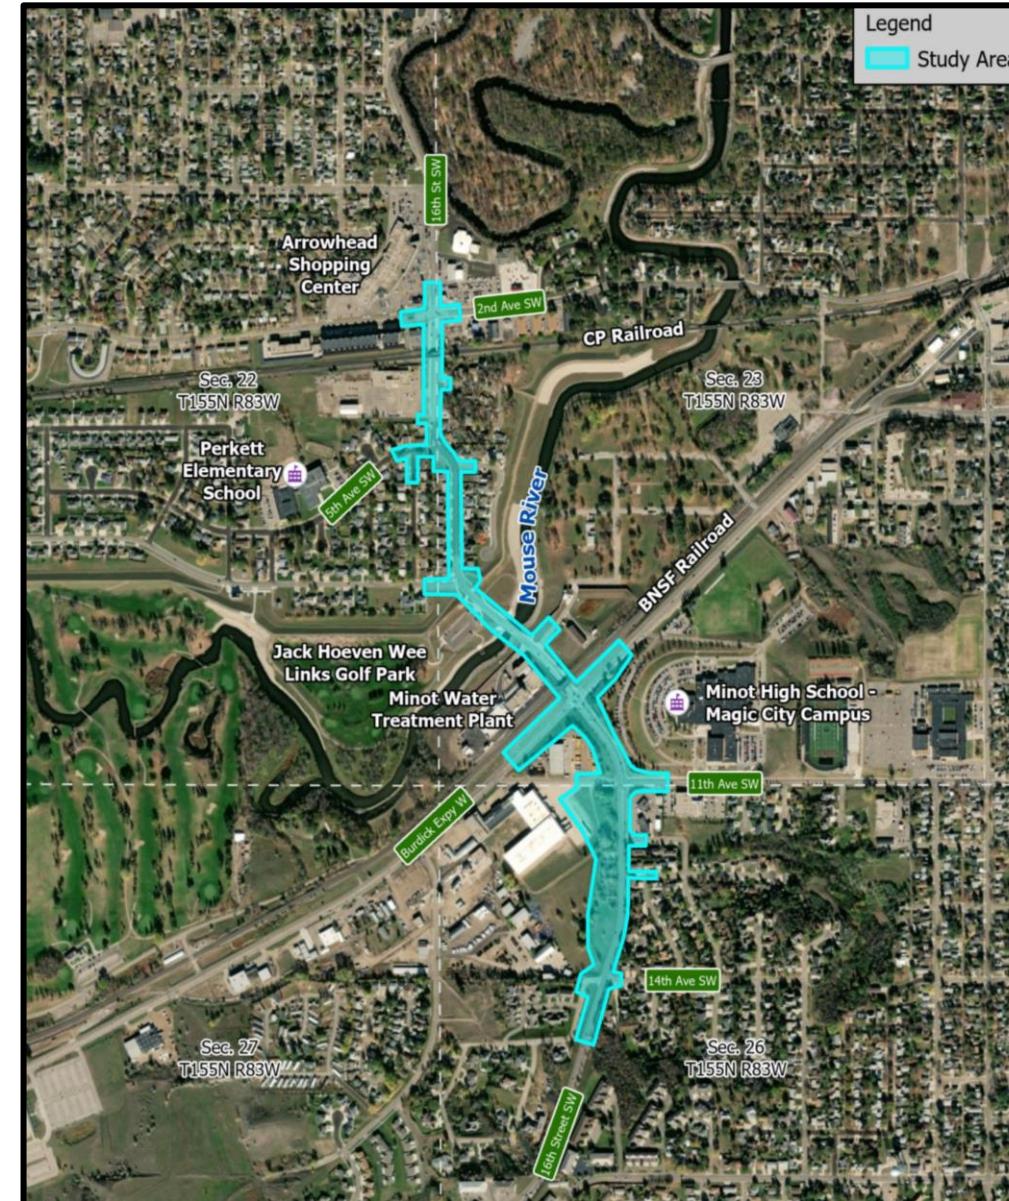

- Project Overview
- Proposed Alternatives
- Estimated Cost and Project Schedule

# Project Overview

# Project Study Area

## Project Background

- Consultant team began work May 2023
- Alternative development/environmental work May – November 2023
- Public input meeting November 2023

## Project Background

- March 4<sup>th</sup> City Council Meeting
  - Due to increased project cost – Council approves splitting project into two phases

Today's  
Focus

## South Project - Purpose and Need

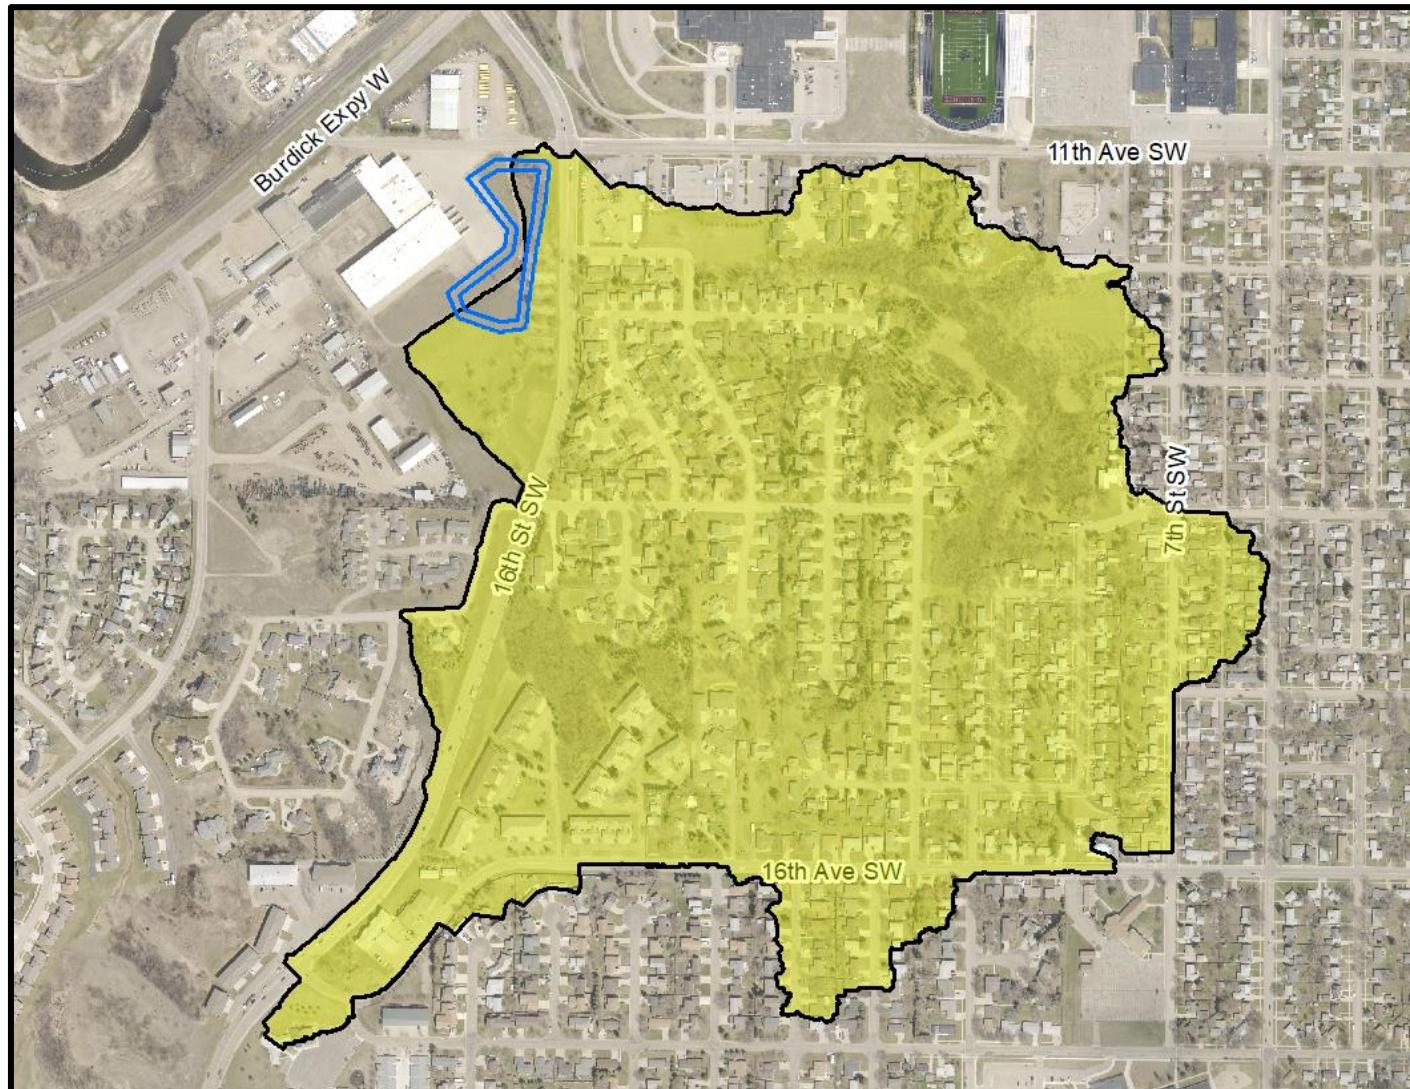

## South Project - Purpose and Need

- Expand storm sewer system capacity including regional retention pond

### Other Needs:

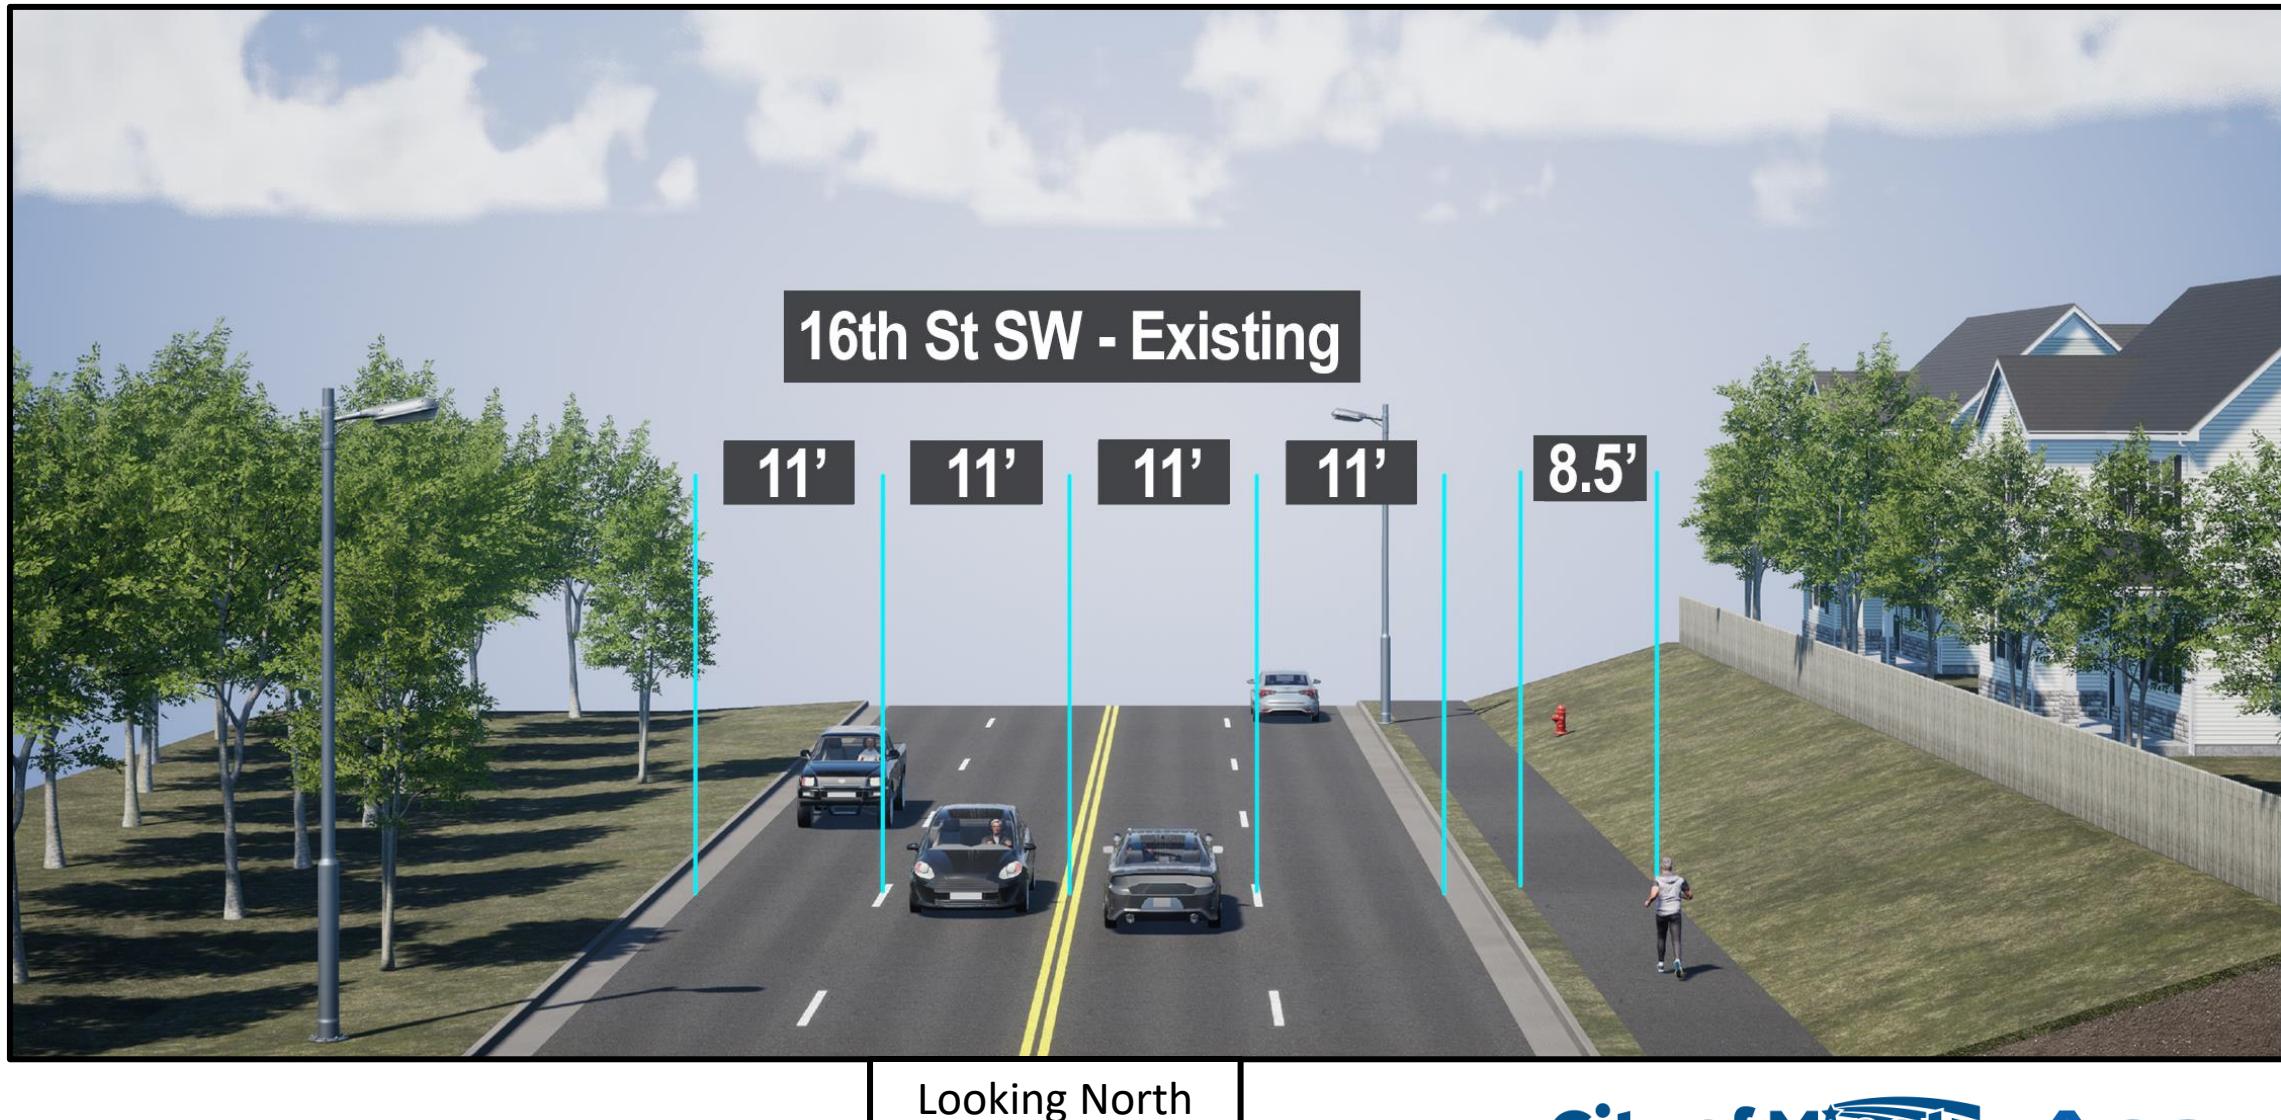

- Lack of left turn lanes
- Need for upgraded pedestrian/bicycle facilities and ADA upgrades

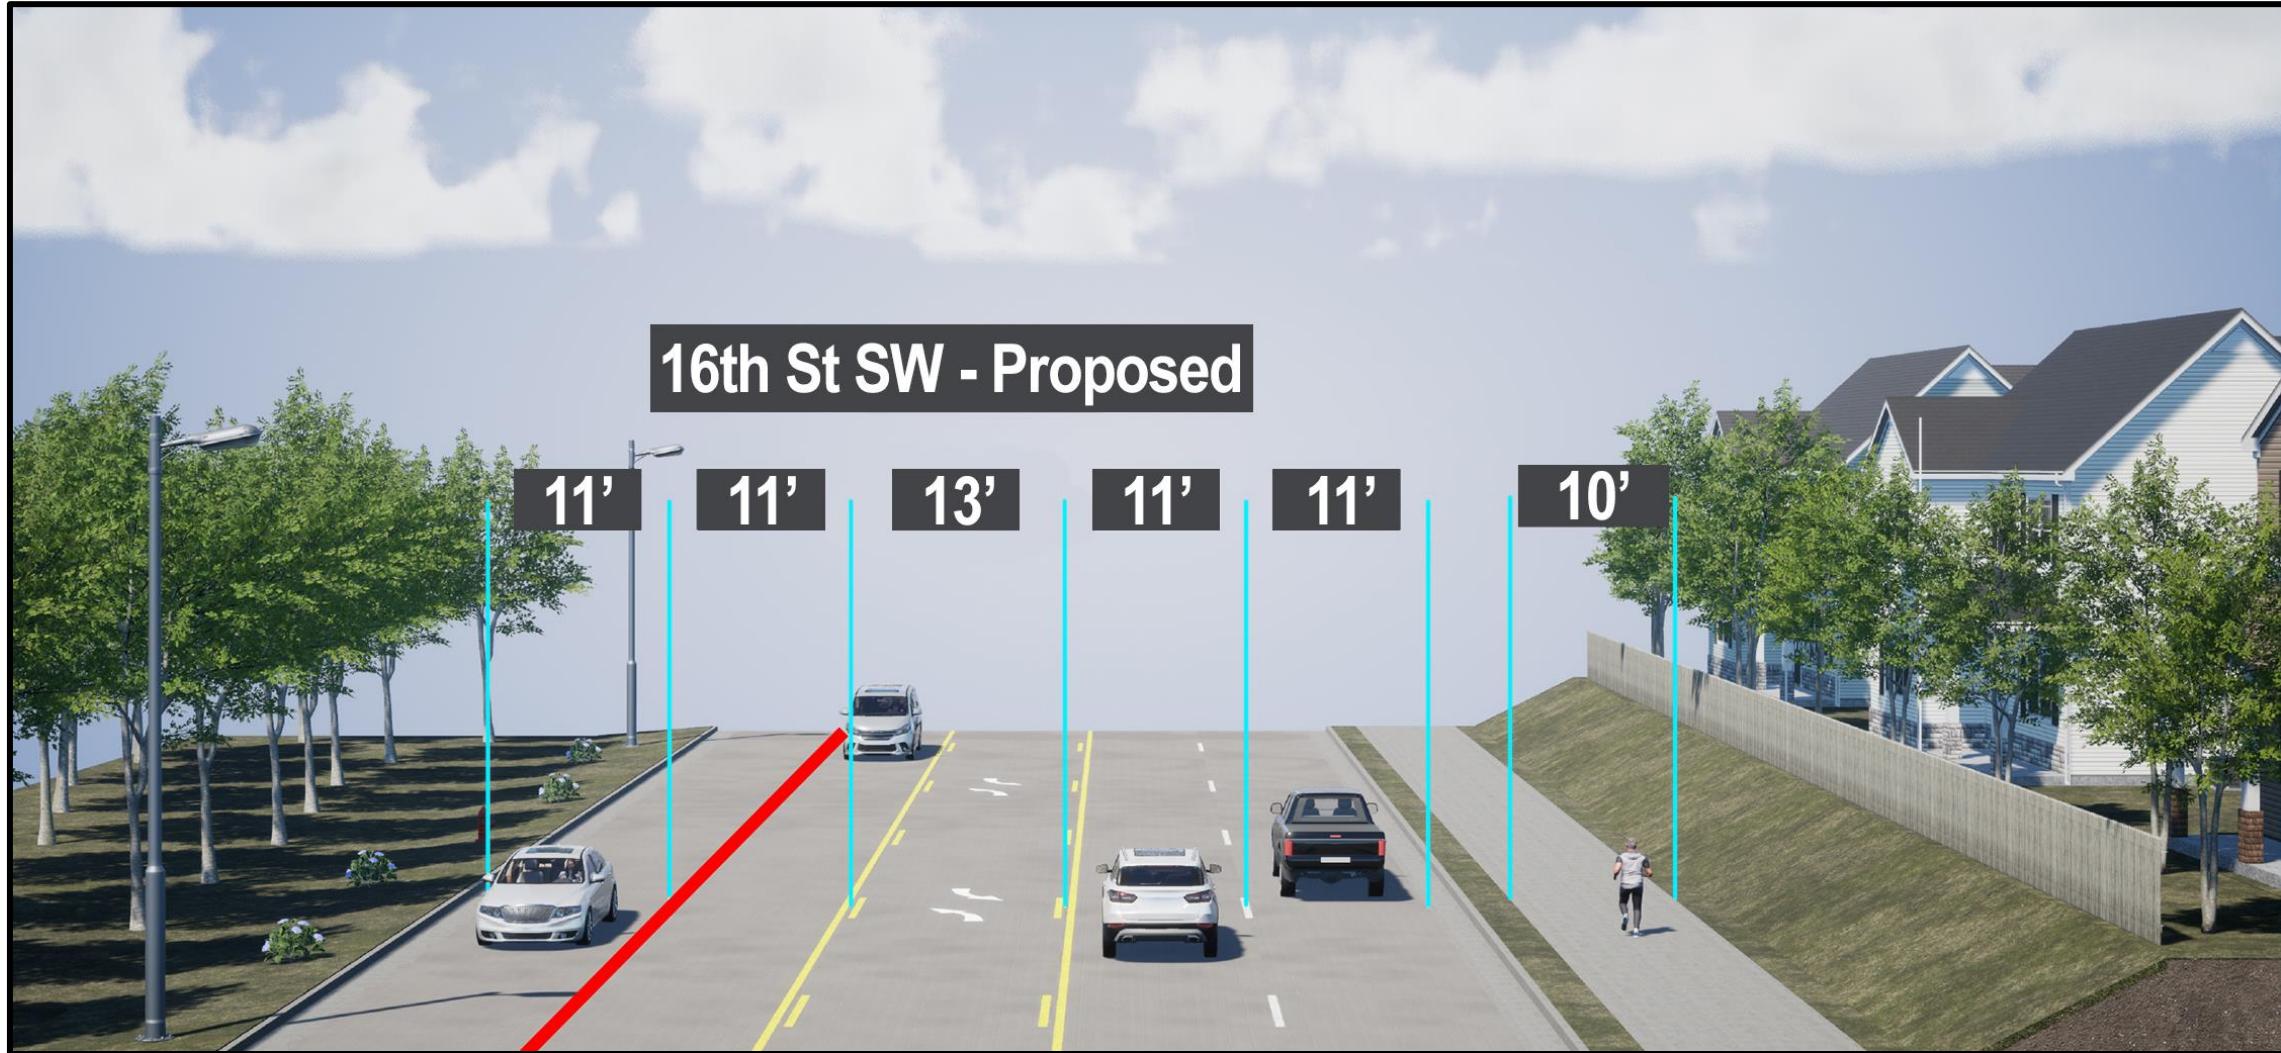

# Proposed Alternatives

## South Project Alternatives

## South Project Alternatives

# South Project Alternatives

16th Street SW Reconstruction  
Alternative B – South Segment  
Looking South

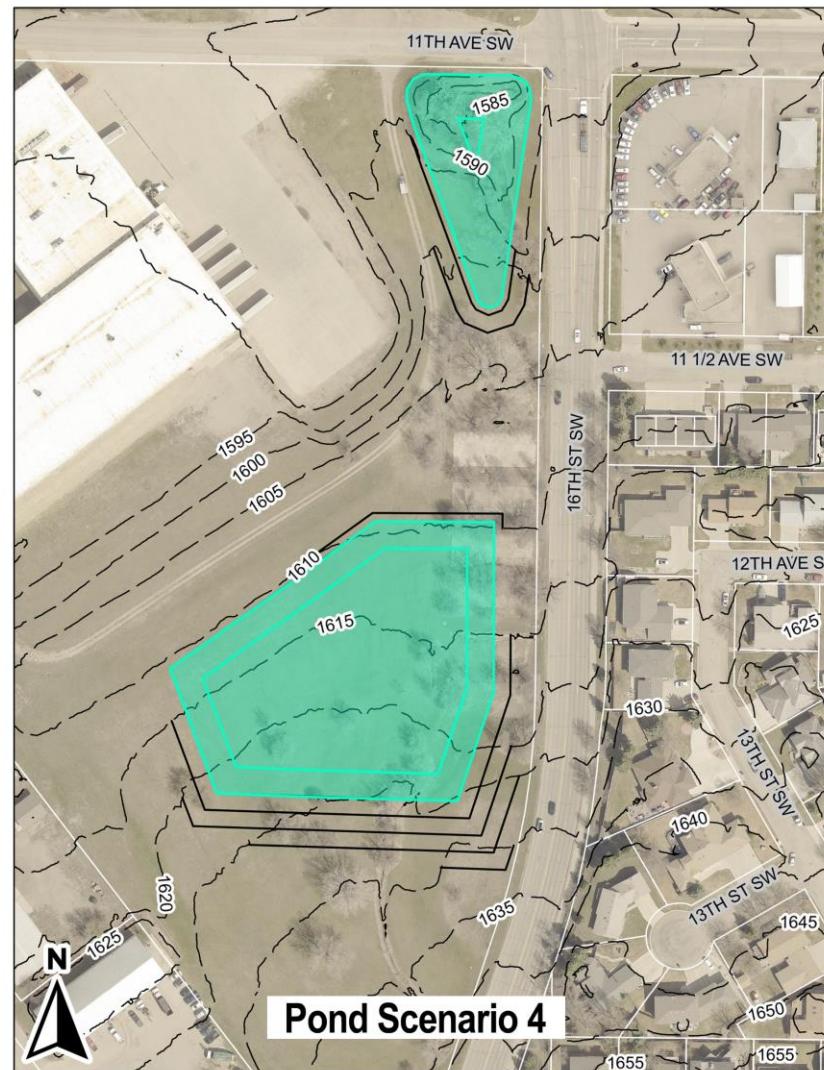

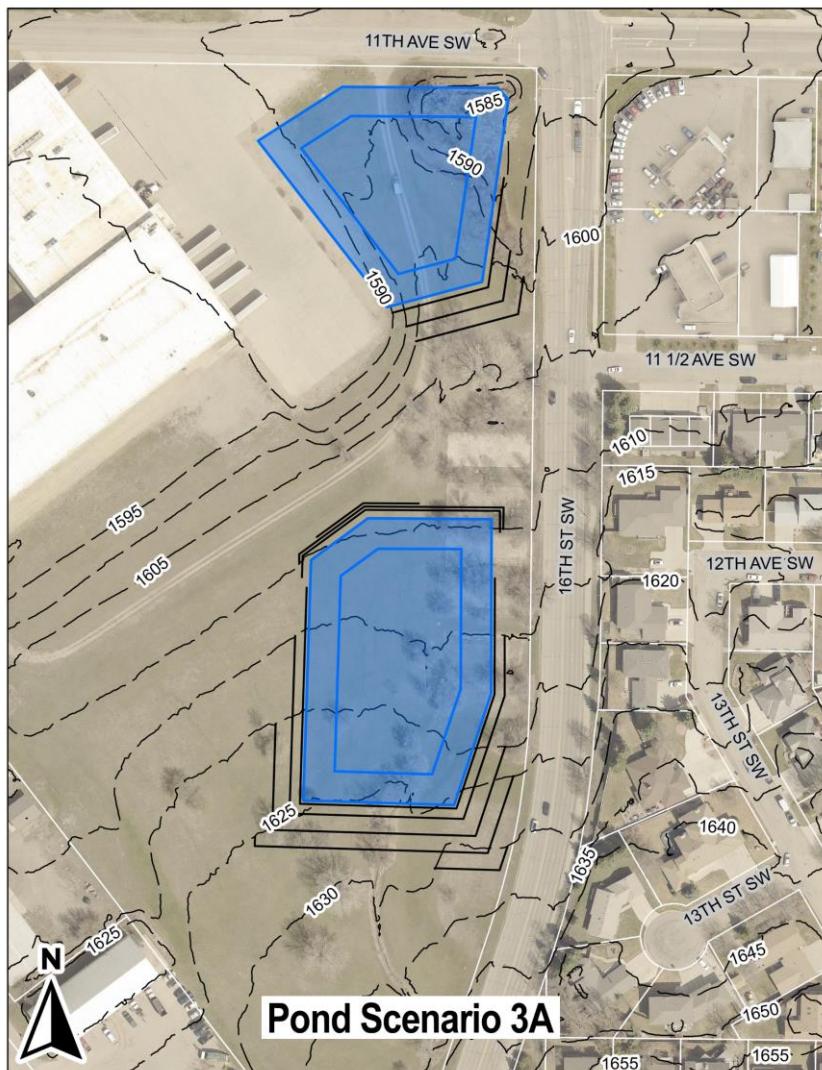

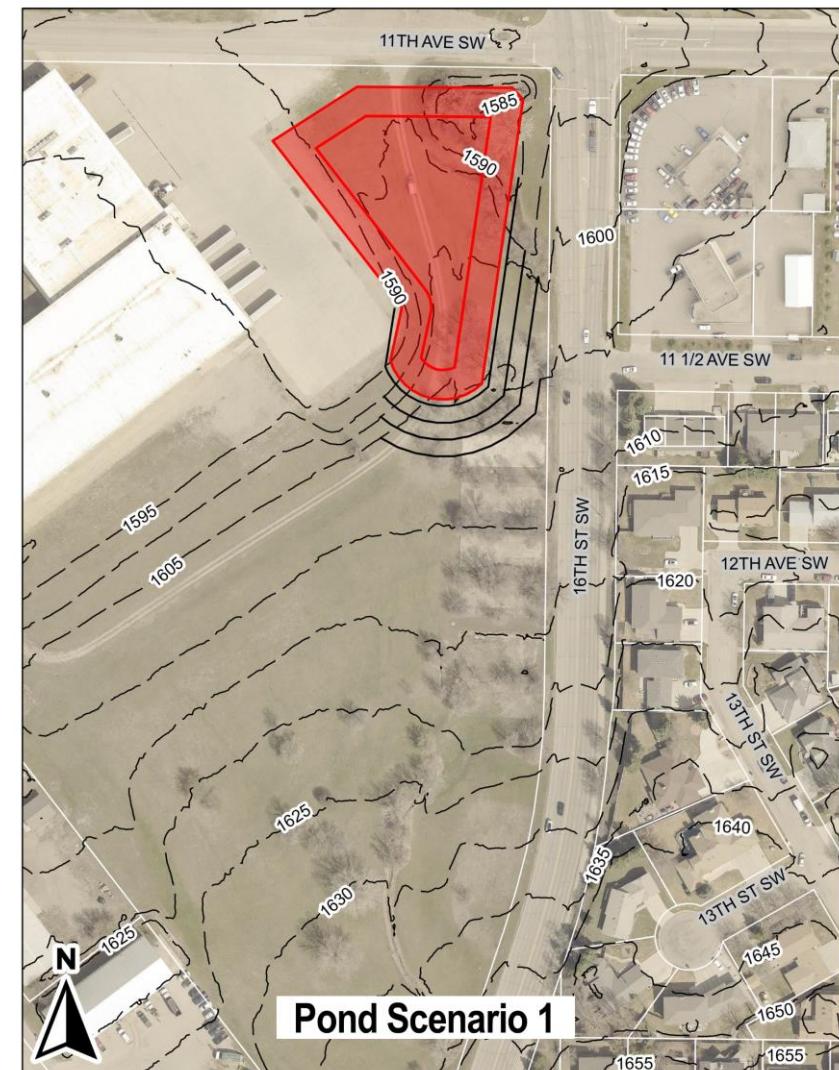

## South Project Alternatives

### ■ All South Project Build Alternatives Include the Following:

- New transition speed zone (30 MPH) from 11th Avenue SW to Burdick Expressway
- Turn lane recommendations from the Traffic Operations Report
- New traffic signal system at 11th Avenue SW
- Revised traffic signal at Burdick Expressway
- New lighting on 16th Street SW
- Drainage improvements at 12th Avenue SW, east of 16th Street SW

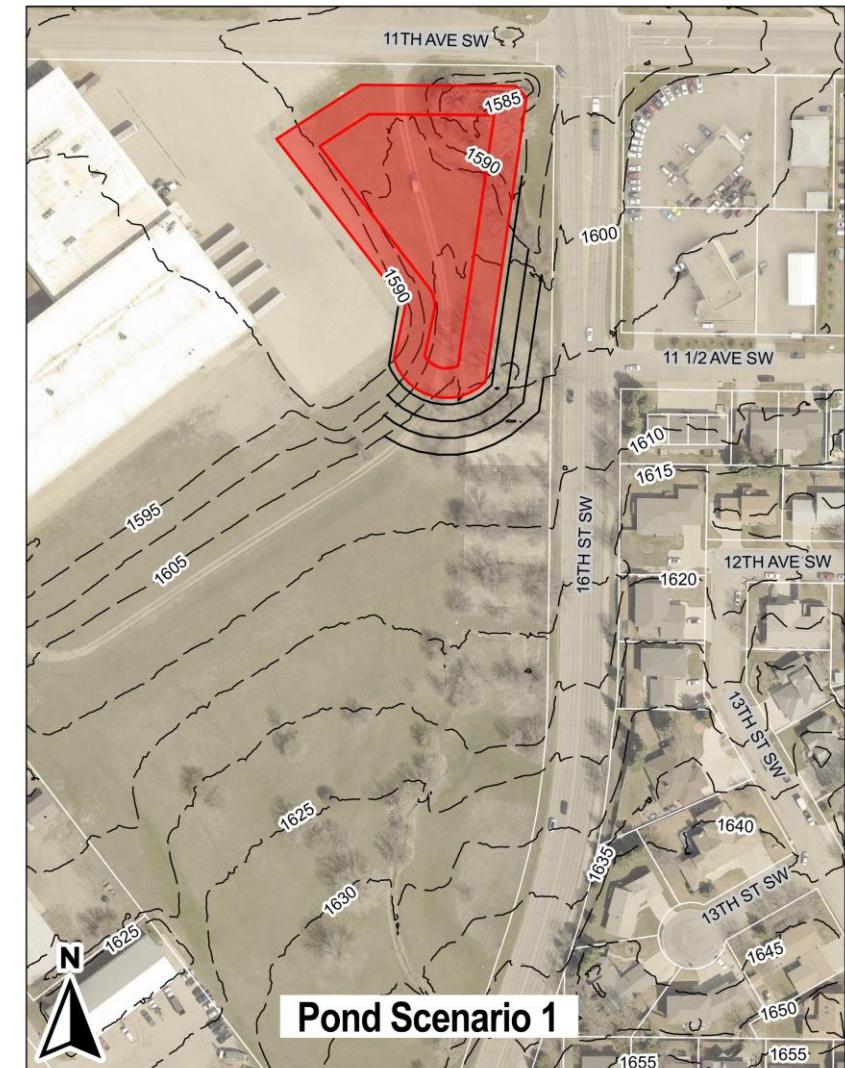

# South Project Alternatives

# South Project Alternatives

## ■ Pond Scenario 1

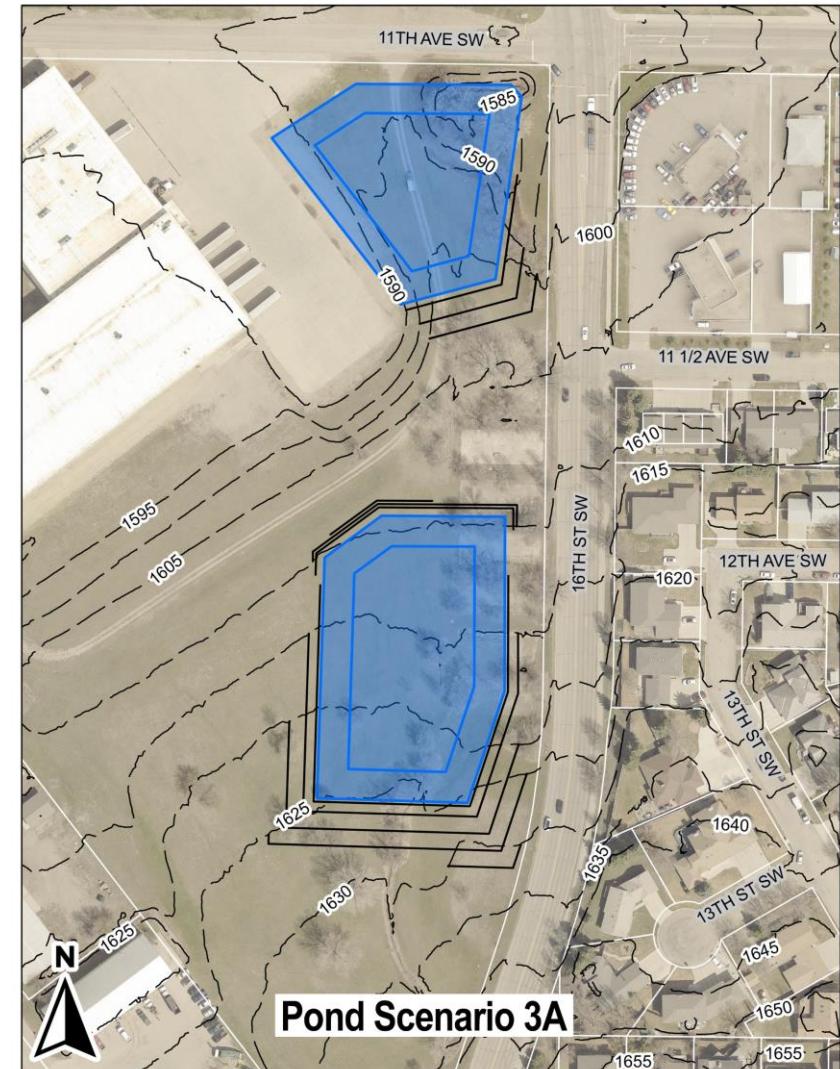

- Single pond system does not meet City requirement of one-foot of freeboard on the 100-year storm event
- Higher duration of flooding at the 16<sup>th</sup> St/Burdick intersection RR underpass
- Undesirable impacts to landowner

## South Project Alternatives

### ■ Pond Scenario 3A

- Two-tiered pond system meets City requirement of one-foot of freeboard on the 100-year storm event
- Lower duration of flooding at the 16<sup>th</sup> St/Burdick intersection RR underpass than Pond Scenario 1
- Undesirable impacts to landowner

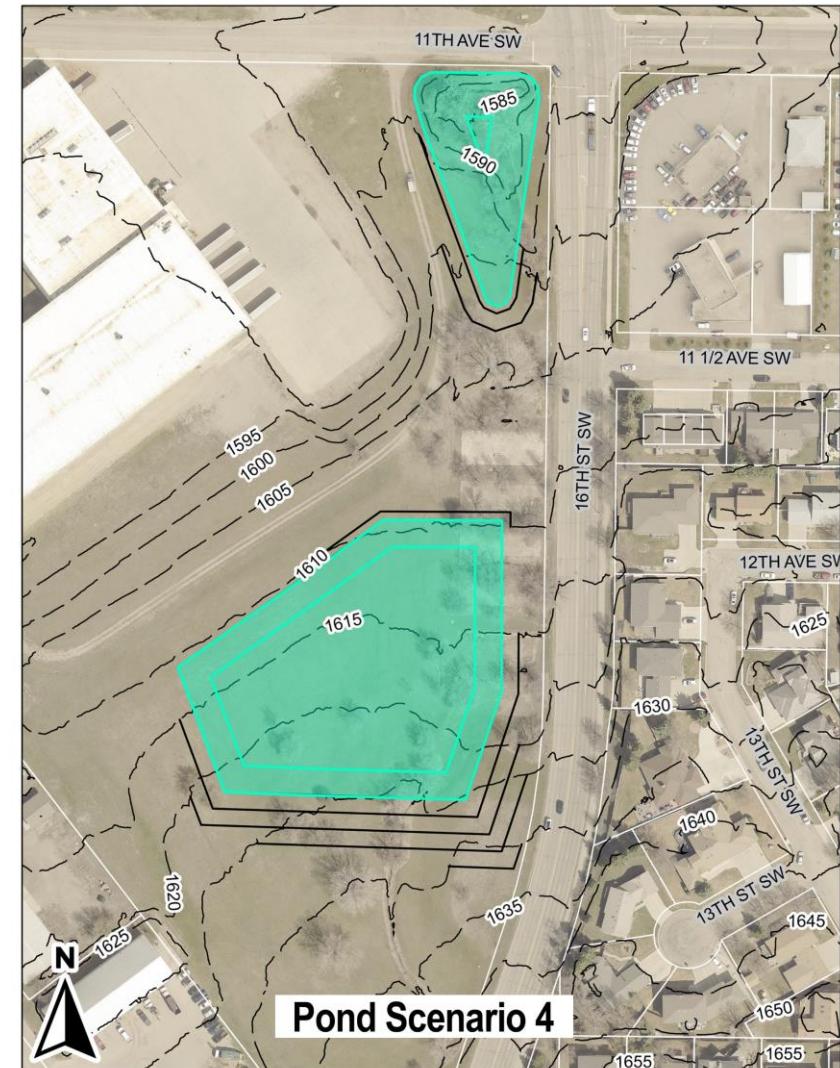

## South Project Alternatives

### ■ Pond Scenario 4

- Two-tiered pond system meets City requirement of one-foot of freeboard on the 100-year storm event
- Lower duration of flooding at the 16<sup>th</sup> St/Burdick intersection RR underpass than Pond Scenario 1
- Preferred pond configuration for landowner

**PREFERRED  
ALTERNATIVE**

## South Project Alternatives

# Estimated Cost and Project Schedule

# Estimated Cost – South Project

	Preliminary Construction & Engineering Costs	Preliminary Land Acquisition Costs	Preliminary Total Estimated Cost
<b>Alternative B With Pond Scenario 1</b>	\$13,740,200	\$280,000	<b>\$14,020,000</b> <i>Total Federal Funds (Capped): \$8,137,612</i> <i>Total City Funds: \$5,882,588</i>
<b>Alternative B With Pond Scenario 3A</b>	\$14,202,500	\$1,000,000	<b>\$15,202,500</b> <i>Total Federal Funds (Capped): \$8,137,612</i> <i>Total City Funds: \$7,064,888</i>
<b>PREFERRED ALTERNATIVE</b> <b>Alternative B With Pond Scenario 4</b>	\$14,017,400	\$1,000,000	<b>\$15,017,400</b> <i>Total Federal Funds (Capped): \$8,137,612</i> <i>Total City Funds: \$6,879,788</i>

*Note: Costs shown are inflated to 2025 dollars.*
